

# Living Waters Spa

"More than a Vacation..."

**Living Waters Spa** is an elite natural hot water spa that offers you a chance to get away, get in touch with life, and rejuvenate mind, body, and spirit. Here you'll discover an enhanced level of the small resort experience.

Our mini-resort is private and "European style" clothing-optional. You are encouraged to soak in our healing mineral waters au naturel and enjoy this total immersion in nature.

For generations Europeans have visited the "spas" and sunbathed nude. Americans are now realizing how relaxing this can be. We know you'll enjoy skinny-dipping in our "miracle waters."

At **Living Waters Spa** we provide you with the very best souvenir of all: no tan-lines!

We're the proud award recipient of:

**Best Hidden  
Gem of the  
United States**

## Spa Accommodations

All of the rooms at the spa face our crystal clear pool. They feature custom king-sized beds, down pillows and comforters, and fine linens. Most rooms have fully furnished kitchens. A continental breakfast and afternoon refreshments are offered daily.

Our pools and Finnish sauna are open for your quiet enjoyment 24 hours a day. Free wireless internet is found on the entire property and a computer is available in the lounge for the use of our guests.

For a maximum "get away" experience for all of our guests, we have no TVs or phones in the rooms at the spa, and we ask you to leave the children and pets at home.

We know that you're going to love your stay. Visit [www.LivingWatersSpa.com](http://www.LivingWatersSpa.com) for more information and current rates at the spa.

**Day use** is available on a limited basis by reservation only, 10am—5pm.

## Condo Accommodations

Just steps away from **Living Waters Spa** are Living Waters Condos. Our condos allow long-term vacationers the ability to enjoy the Palm Springs desert area and at the same time have access to the waters at the spa.

There are six beautiful 2 bedroom units; 4 on the ground floor, and 2 upstairs (with fabulous views.) They are newly remodeled with granite & tile kitchens, new appliances, new carpet, new furniture, with central air and heat, and individual garages.

Our bedrooms are all furnished with custom king-sized beds and fine quality linens. The kitchens are fully appointed, and the living rooms boast flat screen TVs, DVD players and free wireless internet access. Laundry facilities are on premises.

Visit [www.SpaCondos.com](http://www.SpaCondos.com) for current condo rates and more information.

## Massage

Massage therapy is our specialty. We believe that our on-site massage services set us apart from all other resorts large and small. These are some of the popular specialties which are unique to **Living Waters Spa**:

**LWS Signature Massage:** This massage includes the best of all types of massage: deeper work on tight areas accompanied by long flowing strokes meant to relax muscles, increase blood flow, and provide a nurturing state of well being. *75 minutes.*

**Couples Massage:** Imagine receiving our "LWS Signature Massage" while your partner is just inches away enjoying the same experience. You will both love the romantic joy of being massaged and thoroughly relaxed at the same time. *75 minutes.*

**Massage-a-trois (or Four-Handed massage):** Take your massage experience to a new level. Two therapists work in tandem, moving up and down the body with the same pressure and rhythm. You will enter another world. *60 minutes.*

**Desert Stone Massage:** Experience the joy of warm stones gliding over your body. Penetrating heat with gentle effective strokes sooth your muscles, providing a relaxation that reaches your mind, body and spirit. *75 minutes.*

## Mineral Water

Hot mineral water has been sought out by health enthusiasts the world over. Europeans have gone to the "hot baths" since ancient days.

The mineral water found at Living Waters is crystal clear, odorless, tasteless, and colorless. Imagine being immersed in such pure natural water — it is silky smooth!

We have two hot water mineral pools, one under a covered awning and another open to the sun-kissed sky. All of our rooms at the spa surround the pools and the location of our resort and condos offers an amazing view of Mt. San Jacinto and Palm Springs across the valley.

Come experience the joys of our spa. Luxuriate in the rejuvenating water. It's delightful!
